Features of our Transport Management System

This management system has been designed for the transport service of Salim Habib University and aims to help both students and admin in better organising and maintaining all data related to the transportation provided.

01 Login for Admin of SHU

Allows Admin to be able to Create as well as Manage Vans, Drivers, Routes and Passengers

02 Login for Students of SHU

What means of transport do the students of SHU use?

According to a survey conducted the following at the percentage of students that use their own transport, SHU transport or public transport.

SERVICES

SHU Transport Management System provides various services that make it the best and ideal solution for all students

Affordable

The monthly charges for students are set at the most minimum rate possible to make the service affordable for all

Pickup from Doorstep

Students receive pickup from their doorstep and do not need to walk to any set pickup point

Accessible all over Karachi

Doesn't matter where our students live, the service can be accessible for any locality of the city

Safety

SHU guarantees a safe travel environment (excluding any external factors)

DESIGNING TEAM

Introducing the team behind the designing of this entire management system for Salim Habib University.

Abdul Basit

Full stack developer

With the various skills of a full stack developer Abdul Basit has been a key contributor to this system

Maryam Ahmed

Front End Developer

With her skills of front end designing Maryam has been creating the face of our system

Muhammad Zubair

Backend Developer

With skills of backend development Zubair has played a key role on bringing this system to life

CONTACT

We are the students of SHU of Department of Computer Science in the 6th semester. We can be contacted at our university any time. Contact details for the university are provided below.

Location:
The Salim Habib Campus, NC-24, Deh Dih, Korangi Creek,
Karachi, Karachi City, Sindh 74900

Email:
info@shu.edu.pk

Call:
(021) 111-248-338
